## EXPERIENCE & LEADERSHIP

### Immigrantly Media

New York, NY

*Podcast Content Writer*

*January 2024 – July 2024*

- Pitched, wrote, and edited interview-style scripts for Immigrantly Podcast, focusing on the nuanced stories of immigrants, people of color and first generation individuals.
- Conducted careful and curious-forward research on background material to support the script introduction and questions as well as social media content.

### Kinetik

New York, NY

*Software Engineer Intern*

*September 2022 – Decemeber 2022*

- Built an invoicing module with Stripe APIs for SaaS health-tech product focused improving insurance billing in the healthcare transportation industry.
- Translated new design system on Figma to front end code for the Trip Scheduler product line by utilizing React, Styled Components, and CSS.
- Assisted in the development of the new marketing website on Hubspot from Figma Designs using HTML, CSS, and Javascript.

### Radical Living

New York, NY

*Freelance Website Developer*

*June 2022 – August 2022*

- Revamped and redesigned to redesign WordPress [website](#) for nonprofit organization using Flask Application Framework.
- Created a prototype for the front end of the website using Canva and met with client on a weekly basis in order to execute vision using HTML, CSS, JavaScript and jQuery.
- Deployed website on WordPress through GitHub pages.

### Women in Computer Science(WiCS), Columbia University

New York, NY

*Technical Director of DivHacks*

*June 2021 – November 2021*

- Built [hackathon website](#) using HTML, CSS JS while continuing to maintain the website with updates leading up to the event.
- Incorporated animations throughout the website by adding a countdown widget which counts down the event in days, hours, minutes and seconds using JavaScript.
- Managed and directed technical team by training them to use GitHub and delegating tasks to ensure the website contained accessibility tools that support perceptibility, color contrast and adjustable font size.

### Superposition Columbia, Columbia University

New York, NY

*Technical Developer and Director of Media*

*August 2020 – October 2021*

- Developed [website](#) for the club using HTML, CSS, JS for front end.
- Integrated MongoDB as the backend database program in order to store information such as weekly event details and photo gallery from club events.
